The background of the slide is a soft-focus illustration of a person sitting at a desk, viewed from above. The person's hands are on a laptop keyboard. The desk is cluttered with various papers, some with charts and graphs, and a cup of coffee. The overall color palette is light and airy, with pastel shades of pink, blue, and yellow.

The SME Challenge

1

Enterprise Expectations

Customers demand speed and agility from every supplier, regardless of size.

2

Legacy Systems

Spreadsheets and outdated tools create data breaks and slow decision-making.

3

The Solution

Connect data, processes, and people without massive disruption.

Days 1-30: Foundation Phase

Diagnose & Prioritize

01

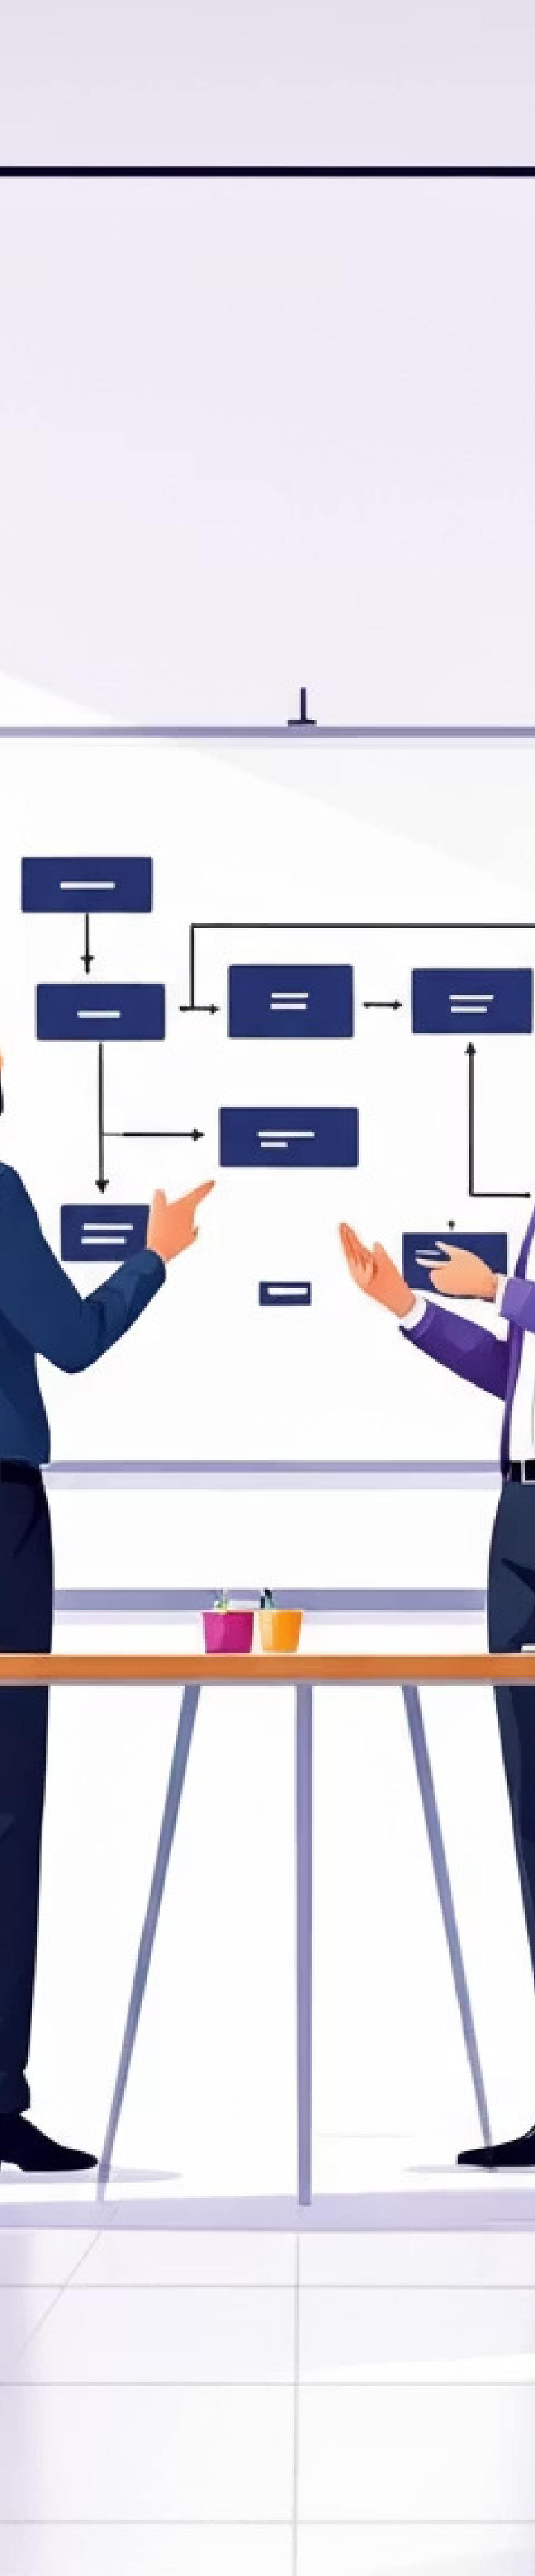

Map What Drives Value

- Identify top 3 pain points
- Trace data breaks end-to-end
- Focus on information flow

02

Establish Metrics Baseline

- Forecast accuracy (%)
- Planning cycle time
- Order-to-confirmation lead time

Days 31-60:

Acceleration Phase

Design & Pilot

1

Choose High-Impact Digital Moves

- Light IBP dashboard (sales–supply–finance)
- AI/statistical forecasting (10–20% improvement)
- Shopfloor visibility tools

2

Engage Your People

- Daily visual flow huddles
- One digital champion per function
- Business–led, IT–enabled approach

Days 61-90: Transformation Phase

Execute & Embed

Turn Pilots into Practices

Convert successful pilots to playbooks, automate data tasks, create governance dashboards.

Capture & Communicate Results

Share quick wins, visualize throughput and service levels, reinvest savings into innovation.
